

# Terms of Reference

The IRC is a forum to exchange ideas and develop approaches for the pivotal role risk management has to play in redressing the balance between people, planet and profit. The IRC is aimed at those who want a world where business leaves a legacy for the future that we are proud of.

## Aims of the Collective:

We provide the space for practitioners to develop practical solutions so their businesses can help create a fairer, more resilient future. IRC members focus on what can be done now, rather than in 20 years' time. . As a group, we:

- Create a space to explore ideas
- Provide a forum for sharing the latest tools and techniques
- Promote collaboration between complementary disciplines
- Research, collate and share information relating to people & planet impact
- Help members navigate the complex landscape of competing requirements (e.g. disclosure)
- Increase members' knowledge in related areas through training sessions
- Move beyond theory, delving deeper into topics that matter to members and taking practical steps to redressing the balance

## Approach

Each month there will be a focus topic, voted for by members. Exploration of the topic will be covered in the following ways:

**Forum** - targeted discussions held within a private LinkedIn group

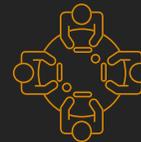

**Ask the Expert** - members will be able to pose questions to relevant experts, in live sessions or offline

**Surveys** - input to and gain insights from surveys of the collective

**Info Share** - topic specific articles and research will be shared

**Roundtables** - curated by the IRC facilitator

**Apply & Feedback** - members apply aspects of their learning from the topics and feedback to the collective

Key information from the monthly topic will be shared in a Focus Topic Booklet.

## Additional opportunities you can get by being part of the IRC:

"Life is like riding a bicycle. To keep your balance you must keep moving." Albert Einstein

Recent world events have reinforced that we cannot predict the future. However, in collaborating with diverse groups of thinkers and doers, we can continuously shape ideas based on the latest research available to us. We want to give you the opportunity to learn from and contribute to academia, to help align theory and practice.

- Contribute to thought pieces in publications
- Participate in active sessions with academic institutions, to advance research in the role of risk management in the business of the future
- Join or lead working groups within the collective to delve into specific planetary challenges that your business function could help to address
- Input into the IRC impact measurement project - where we look at ways we can measure the impact of the collective

## FACILITATOR:

The role of the IRC facilitator is to lead on content creation, stimulate discussion and provide administrative support to the collective. Impact Amplified are currently conducting this role. If you or your company are interested in becoming the facilitator please contact [hello@impactamplified.co.uk](mailto:hello@impactamplified.co.uk)

# Membership Structure

## MEMBER

Members take an active role in contributing to IRC activity such as engaging in forum discussions and ask the expert sessions. Whilst administrative support is provided by the facilitator the IRC is a collective - members work together to achieve a common objective.

### Contribution:

Monthly contribution to the focus topic survey (10 min )

## PIONEER

Pioneers are members who are keen to be more actively involved in shaping the strategic direction of the IRC and the role it can play in influencing the long term purpose of the risk management profession.

### Contribution:

In addition to member contribution:

- Quarterly attendance to strategic direction meeting (1 hr zoom)
- Act as a sounding board and ambassador

Depth and frequency of all other contribution is at your discretion.
